

ELITE BEEF SIRES FOR PURE AND CROSS BREEDING

BRONFORT GENETICS is a belgian company located in the native region of the Belgian Blue.

We are sourcing the greatest performing blood lines. The bulls are distributed world wide through artificial insemination or supplied to our clients.

The catalogue is the actual collection of the most exciting diversity of Belgian Blue sires. All these sires are progeny tested at the national herd-book.

The highest performer Belgian Blue bulls have been selected for the next three range of application:

- pure breed Belgian Blue.
- commercial beef producers looking to the most performing cross lines to improve the off-springs on the next characteristics: daily gain, killing-out, feed conversation ration, docility, ...
- dairy farmers looking to exceptional elite sires to maximise the financial return on cross beef calves born easily, healthy, growing quick and sold at the highest price.

One bull in these catalogue is a pure breed Parthenais. BALTO is born and progeny tested in France. He is classified number on weaning index and combine easy calving ease.

ACCORD de Wihogne

Breed : **BELGIAN BLUE**

1.200 kg, 145 cm (+4) at 37 month

Breeder : **Franz COSSE, Sorinnes - Belgium**
